Westwood Co-Housing Community was founded based on Danish co-housing principles that place priority on ecological responsibility, community living and resident involvement. 4.2 acre compound with plentiful amenities. Rarely offered, this green-built end unit features solar-assisted radiant floor heating, spacious deck, open floor plan, and more. Ready for your personal touches, it's ideally situated close to WAVL's many options for dining, shopping and entertainment. Prior to offer acceptance, buyers required to meet WCC requirements: meet with and review materials provided by sales committee, view the property and grounds, attend at least one full or other governance circle meeting of the association as an observer, one community meal, and one workday. One AC unit is not working, property selling as is.
